7.00 ORGANOLEPTIC PROPERTIES	
Provide a full description of the organoleptic properties of the PRODUCT.	
Appearance:	Light Halves: Light creamy or Golden Kernels. Note: Colour gets a little dull or dim for shipments during shipments April-August because of the following factors: a) age of kernels is over 7 months b) after march, summer sets in India with the temperature ranging between 35C-45C. Light Amber Halves: Lightly Amber or Tanned kernels
Flavour and Aroma:	Fresh flavour, typical of walnut kernels. Fresh, non-rancid odour typical of Indian walnut kernels. Free from any irrelevant taste or odours
Texture:	Crunchy, typical of fully formed walnut kernels, non-oily

Organoleptic properties are obviously dependent on the crop and harvesting conditions of the current year.
