7.00 ORGANOLEPTIC PROPERTIES

Provide a full description of the organoleptic properties of the PRODUCT.

Appearance: Light Halves: Light creamy or Golden Kernels.

Note: Colour gets a little dull or dim for shipments during shipments April-August because

of the following factors:

a) age of kernels is over 7 months

b) after march, summer sets in India with the temperature ranging between 35C-

45C.

Light Amber Halves: Lightly Amber or Tanned kernels

Flavour and Aroma: Fresh flavour, typical of walnut kernels.

Fresh, non-rancid odour typical of Indian walnut kernels. Free from any irrelevant taste or

odours

Texture: Crunchy, typical of fully formed walnut kernels, non-oily

Organoleptic properties are obviously dependent on the crop and harvesting conditions of the current year.

8.00 NUTRITIONAL INFORMATION		
Parameter	Value (per 100grams)	Source
Energy Kj / kcal	2878/688
